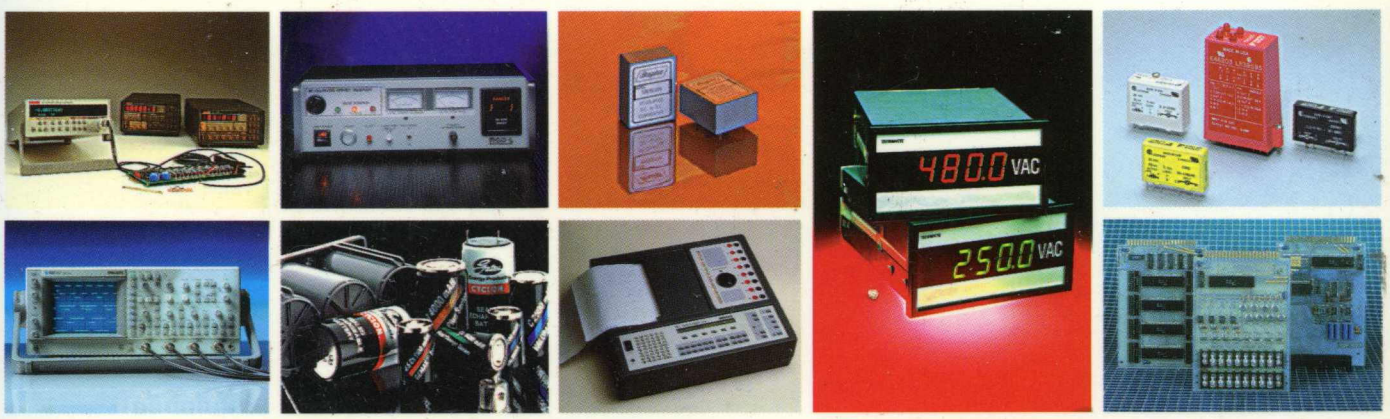
electronic engineers master catalog

VOLUME D



power sources, instrumentation, computer products, and equipment

34th EDITION

1100 Amplifier Assemblies, Instrumentation
1200 Antennas & Accessories
1300 Audio Equipment & Accessories
1900 Communications & Telemetry Equipment
2000 Computer Peripheral Equipment
2025 Computers (Mini/Micro/Boards)
2050 Computer Software
2200 Control Systems & Components
2325 Data Acquisition/Handling Systems & Accessories
2550 Environmental Test Equipment
2900 Instruments, Test & Measuring
2950 Panel Meters (Analog & Digital)
2975 Oscilloscopes
3000 Graphic Recording Instruments
3900 Batteries
4000 DC Power Supplies
4050 AC Power Supplies
4100 Production Equipment & Manufacturing Services
4900 Servomechanisms & Robotic Equipment

volume A Electronic components

volume B Electromechanical, electro-optical, and military components

volume C Interconnections, packaging, and hardware

Important Notice
Some manufacturers supply pricing information in Electronic Engineers Master. Any such pricing is included solely as a guide and is not intended to be a quotation. All participating manufacturers reserve the right to change specifications and/or prices or to discontinue items without prior notice. While every precaution has been taken to ensure accuracy in content, the publisher cannot be responsible for manufacturers' claims or representations. Nor, can any guarantee be made against the possibility of error or omission. No portion of EEM may be reproduced by any means without the prior written permission of the publisher.

how to use eem

The 34th edition of EEM is arranged in four volumes each composed of related Product Sections. For user convenience, each volume contains its own Product Index and Directory (green pages) and its own Manufacturers and Sales Offices Directory (yellow pages). Every Product Heading and every manufacturer of electronic products is listed in each volume. Where, however, the Product Section is assigned to a volume other than that in use, a cross reference is made to the appropriate volume for further information.

To locate a specific product. Start by choosing the volume whose title describes the class of electronic product you are seeking. If you are not sure which volume is appropriate, pick up the first one at hand and look up the product heading in the green pages. There you will find either a list of that product's manufacturers or you will be referred to the proper volume. All products are identified by their generic terms. Please read the instructions on the first page of each section. Manufacturers with catalog data pages in this edition of EEM appear in boldface type and page numbers are shown. Manufacturers appearing in lightface type have submitted verifying evidence that they supply the products shown. When you have located a product of interest, turn to the page(s) shown for further information. You will find these pages in each volume in the appropriate sections.

product selection guides

There are 35 Product Selection Guides included in this edition of EEM. They are located on the first pages of the Product Section to which they apply. Use these guides for basic selection parameters and then go to the EEM pages shown in the guide for more detailed information.

product selection index

Product Section Guide		Vol. A	Vol. B	Vol. C	Vol. D
1100	Amplifier Assemblies, Instrumentation				D•1002
1200	Antennas & Accessories				D•1020
1300	Audio Equipment & Accessories				D•1024
1400*	Cabinets, Enclosures, Racks, & Chassis			C•1002	
1500*	Capacitors	A•1002			
1600	Chemical Compounds (Adhesives, Cleaners, Coatings)			C•1145	
1700	Circuit Boards (Printed), Materials, & Accessories			C•1147	
1800*	Coils, Chokes, & Inductors	A•1154			
1850	Cores, Magnets, & Ferrites	A•1284			
1900	Communications & Telemetry Equipment				D•1067
2000	Computer Peripheral Equipment				D•1079
2025	Computers (Mini/Micro/Boards)				D•1120
2050	Computer Software				D•1123
2100*	Connectors, Terminals, & Sockets			C•1155	
2200	Control Systems & Components				D•1126
2300*	Crystals, Oscillators, Crystal & Piezoelectric Filters	A•1300			
2325	Data Acquisition/Handling Systems & Accessories				D•1144
2350*	Delay Lines	A•1492			
2400*	Panel Hardware (Bezels, Dials, Knobs, etc.)			C•1582	
2440*	Military Components and Equipment		B•1002		
2450*	Displays, Readouts, & CRTs		B•1032		
2460*	Lamps, Lights, & Indicators		B•1134		
2475*	Fiber Optic Equipment & Accessories		B•1214		
2500	Hardware & Mechanical Components			C•1595	
2550	Environmental Test Equipment				D•1200
2600*	Fans, Blowers, Cooling Equipment, & Heat Exchangers			C•1600	
2700*	Filters, Power	A•1608			
2750*	Filters, Signal	A•1650			
2900*	Instruments, Test & Measuring				D•1206
2950*	Panel Meters (Analog & Digital)				D•1340
2975*	Instruments, Oscilloscopes				D•1406
3000	Instruments, Graphic Recording				D•1415
3100	Insulators & Insulating Materials			C•1670	
3130	Integrated Circuits, Hybrid Circuits, & Function Modules	A•1719			
3200*	Interconnection Systems (Backpanels, Card Holders, & Packaging Systems)			C•1678	
3450*	Microwave Components, Systems, & Equipment	A•1746			
3500*	Motors, Drives, & Rotating Equipment		B•1232		
3700	Electro-optical Equipment		B•1319		
3900*	Batteries				D•1426
4000*	Power Supplies, DC				D•1500
4050*	Power Supplies, AC				D•2146
4100	Production Equipment & Manufacturing Services				D•2234
4200	Prototype Boards, Kits, & Design Aids			C•1685	
4300*	Protective Components (Fuses, Circuit Breakers, etc.)		B•1346		
4500*	Relays		B•1396		
4525	Shields & Shielding			C•1686	
4550*	Solenoids		B•1614		
4600	Soldering & Desoldering Equipment			C•1701	
4700*	Resistors	A•1834			
4750*	Potentiometers, Trimmers, Controls, & Rheostats	A•2012			
4800*	Discrete Semiconductors	A•2082			
4900	Servomechanisms & Robotic Equipment				D•2240
5100*	Switches		B•1638		
5150*	Keyboards & Keypads		B•1794		
5300*	Thermal Components		B•1830		
5400	Tools (Manual & Power)			C•1702	
5500*	Transducers & Encoders		B•1872		
5600*	Transformers	A•2130			
6000*	Wire & Cable			C•1704

advertisers' index

To find a specific manufacturer's data pages, an alphabetical index of EEM participants appears in EEM starting on page A•4 of Volume A and on pages B•4, C•4 and D•4 of the other volumes.

trademark and logofinder directories

A comprehensive Trademark Directory is included with Volume C. The EEM Logofinder shows the symbols and graphics used by manufacturers as identifiers on their products. Use these pages to locate manufacturers of specific trademarks and logos.

manufacturers' index

In the EEM yellow pages you will find pertinent details on all manufacturers listed in EEM including local sales offices and/or distributors. Please refer to the detailed instructions on the first page of the EEM yellow pages for additional information.

to order a product found in eem

When you have located the product that suits your needs, call the manufacturer or the local sales rep or distributor as shown in the EEM yellow pages. Give the EEM data page number and specs from that page. You and the supplier will be talking on the same wave length which should simplify your ordering and buying.

to file manufacturers' catalogs and data

The EEM File System is revised and updated to reflect changes in EEM itself. Each new EEM File System contains a complete Product Index. This index tells you where to file which catalog. It also contains a cross reference identifying what should be filed in each section. In order to use the EEM File System all you need is a supply of standard letter size, third-cut manila file folders. You then use the pressure sensitive labels which are supplied with the system to go into as much detail as you want or need.

Each label fits the third-cut file folder exactly. There are over 300 of these labels in each system: one for the index, one each for the EEM Product Sections, 24 for the alphabetical file of multiproduct catalogs, plus more than 200 additional labels for system expansion. The EEM File System also includes Cross Reference Cards so you can quickly and easily find multiproduct catalogs. The EEM File System is complete and can save you countless hours of time and thousands of dollars. Send your check for $25.00 to: EEM File System, 645 Stewart Ave., Garden City, NY 11530 and we'll absorb postage and handling. Send a purchase order and add $5.00 for postage and handling. NY, CA and MA residents, please add sales tax.

91 92 Product Index and Directory

All products are listed alphabetically by their generic names and then by subclassification. For example, look for "Fiber Optic Connectors" under "Connectors, Fiber Optic" or for "Digital Panel Meters" under "Meters, Panel (Digital)."

Following each product heading is a four-digit number directing you to the Product Section where these products are usually cataloged. If that Product Section is not in the EEM volume you are using, a "See Vol. A, B, C, or D" will direct you to the proper volume for your product classification. No numbers appear with cross-reference headings.

Under each product heading whose Product Section appears in the volume you are using, the names of the manufacturers who supply the product are shown in alphabetical order with EEM catalogers shown first in boldface type with appropriate page numbers. Other manufacturers are shown in light face type. The symbol (§) indicates that these products are available from local distributors. The symbol (†) indicates that the product is available to MIL specifications.

Abrasives-6400 — See Vol. C

Absorbers, Microwave-3450 — See Vol. A

Accelerometers-5500 — See Vol. B

Acoustic Systems (MIL)-2440 — See Vol. B

AC Power Protection Equipment — See Line Conditioners (Vol. D)
